**Safe shopping**

The increasing availability of the Internet and digital TV means that now it's even easier and quicker to shop without leaving your home. But as a consumer, you should still take care when paying for goods and services.

**Before you buy**

Make a note of the company's contact details, including a street address and landline telephone number. Never rely on just an email address or a post office box. You should also remember that you may have to pay for shipping costs, customs duty, VAT, etc. All these hidden costs can push up the price of the goods or service.

**Paying for goods online**

It may be worth paying by credit card. If the goods or services you are buying cost over 100 pounds and you pay by credit card, you may be protected by the Consumer Credit Act. This states that the credit card company is equally liable for any defects. Therefore, should a problem arise, you can claim either from the trader or from the credit card company.

**Top tips**

Make sure that the web address of the pages starts <https://> before you enter any personal information or payment details. The "s" stands for "secure". Always print out a copy of your order and a copy of the acknowledgement that you should receive. Always check your bank statements carefully if you purchase something on the Internet. You should never be asked to tell anyone your card's PIN number - even if they claim to be from your bank or the police. Never send your PIN number to anyone over the Internet.

## THE EDITED COPY

Enrolment up by 18%

A total of 957 college students enrolled this semester at General de Jesus College. This is eighteen percent higher than the 811 enrolment figure last semester.

Mrs. Arlene Garcia, the school registrar, attributes [increase] this to the addition of year levels to the BSBA, BSIT, BSA and BSACt courses. In addition to this, Doctor Josefina Magno, VP for Academics, sees GJC's proximity to the towns in Nueva Ecija's 4th Congressional District as a factor that contributed to the upsurge in enrolment.

According to Dr. Magno, this is because this the school's location in San Isidro entails fewer expenses (i.e. lower transportation costs and no need for board and lodging) for students enrolled here.

As likened to those studying in Cabanatuan.
