An Equal Opportunity Educational Institution

Dental Hygiene Department Application Packet

There have been significant changes in the 2025 application. Read the entire packet carefully and follow all directions. Failure to follow instruction may cause your packet to be rejected as incomplete. It is the applicant's responsibility to ensure that the Dental Hygiene Department receives all required paperwork and information by the deadlines.

Dear Applicant:

2025

Thank you for your interest in the Wharton County Junior College Dental Hygiene Program. Our two-year program (five semesters) is accredited by the American Dental Association Commission on Dental Accreditation. Students who submit a completed application packet and meet all deadline criteria will be evaluated by a selection committee for acceptance into the program.

No applicant will be denied acceptance on the basis of disease status, such as HIV, HBV, or HCV. In the occurrence of such infection, the Rules & Regulations established by the Texas State Board of Dental Examiners (TSBDE) state the health care provider must notify patients and obtain their written consent prior to patient treatment. The student may encounter obstacles with acquiring patient consent thus making completion of clinical educational requirements difficult. In the event that the student completes the program, the TSBDE may deny licensure. Therefore, in the instance of such disease status, career counseling may be in order.

Wharton County Junior College Dental Hygiene Department requires all accepted applicants to undergo a Criminal Background Check prior to full admittance into the program. If you have ever been charged or convicted of any misdemeanor or felony other than a traffic violation you must obtain a Criminal History Evaluation (CHE) from the Texas State Board of Dental Examiners (TSBDE). This includes all class C misdemeanors that are not traffic violations. Please note this refers to any CHARGES including dropped charges. Final acceptance into the program is contingent upon a satisfactory background check, which will be completed by an approved agency at the applicant's expense. The estimated cost is \$70.00. The TSBDE may deny application for licensure based on a person's conviction under state or federal law of a felony or misdemeanor that directly relates to the duties and responsibilities of the profession for which the person seeks licensure. For further information see *The Texas Occupations Code*, Section 263.001, Ineligibility for Licensure.

In order to receive full acceptance for enrollment in the Dental Hygiene Program, an applicant with an unsatisfactory criminal background check must obtain a Criminal History Evaluation (CHE) from the TSBDE to ensure licensure eligibility upon graduation <https://tsbde.texas.gov/licensing/criminal-history-evaluation/>

If you have been CHARGED or CONVICTED of a misdemeanor (excluding Class C traffic violations only) or felony, you must submit the CHE to the TSBDE 90 days BEFORE the APPLICATION DEADLINE. It is your

responsibility to ensure your background is clear. The CHE will then be complete if you are selected into the class or if you have alternate status; and will not prevent final acceptance into the program. Your acceptance may be denied if you have an unsatisfactory background check and fail to obtain a CHE confirming licensure eligibility by the application deadline.

Students accepted into the Dental Hygiene program are subject to random drug screenings throughout the program which consisting of a Health Care Professional Panel. These screenings are randomly scheduled and the expense of the screening is the student's responsibility. Only drug screenings conducted through a College-approved agency will be accepted. A student with a positive drug screen will be dismissed from the program and may re-apply after a minimum of twelve months, and provide documentation of successful counseling and treatment. The cost of the drug screen will be at the applicant's/student's expense and is approximately \$50. Additional information will be provided in the Acceptance Packet

Patient treatment is a required component of the curriculum. This is achieved in the Dr. Anna T. Harrison Dental Hygiene Clinic located on the Wharton campus. The program has established an Infection Control Policy that is available to interested parties on the dental hygiene webpage at <http://www.wcjc.edu/Programs/allied-health/dental-hygiene/infection-control-policy.aspx>.

Assistance with financial aid and scholarships is available. Personnel in the Office of Financial Aid will be able to assist you with financial aid and scholarship options. The Office of Financial Aid, 1-800-561-9252, ext. 6345, designates application deadlines as April 1 for fall funds and November 1 for spring funds, even if program acceptance is still pending. Applications for financial aid may also be submitted at www.fafsa.ed.gov.

This application packet includes:

1. Program Deadlines & Requirements, pg. 3
2. Application Check List, pg. 6
2. Selection Committee Criteria, pg. 7
3. Dental Hygiene Department Philosophy Statement and Goals, pg. 9
4. Course Transferability, pg. 9
5. Program Information, pg. 9
6. Foreign Transcripts, pg. 10
7. DH Curriculum, pg. 11
8. Immunization Requirements, pg. 14
9. Example of Technical Standards, pg. 14
10. Dental Hygiene Application, pg. 15-18
11. Expense Estimates, pg. 19

If you need further assistance with the application process or other program information, please contact Cylinda Konvicka at 979-532-6429 or konvickac@wcjc.edu. It is the applicant's responsibility to verify that the department secretary receives all documents pertaining to the application packet prior to the May 31st deadline. Also, please be advised that our department does not require personal interviews.

Sincerely,
Carol J. Derkowski, R.D.H., M.A.I.E.
Director of Dental Hygiene

Dental Hygiene Department

Program Deadlines & Requirements

Only complete applications will be considered. It is the applicants' responsibility to ensure all requirements are met and all required documentation is received by the deadline. All documentation must be received prior to the May 31 deadline to be considered for acceptance to the Dental Hygiene Program.

Application Deadline	May 31
Number Accepted	UP to 28 applicants will be accepted dependent upon space availability and program constraints. The application process is competitive and meeting all application requirements does not guarantee admittance to the program.
Program Requirements	
GPA	Minimum 2.5 GPA in all required college courses and in any previously taken dental hygiene courses, regardless of school.
ACT	National ACT is preferred with a minimum score of 19 composite and 18 reading. ACT must be taken within past 5 years of application deadline. The writing portion is not required. The ACT is REQUIRED OF ALL APPLICANTS. THERE ARE NO EXCEPTIONS so please do not ask.
Letters of Recommendation	We do not accept letters of recommendation. Please do not include them with your application
Hepatitis B Immunization	Must be documented "In Progress" by the May31st deadline. The series must be completed prior to January 1 of the freshman spring semester.
Age upon Graduation	Applicants must be a minimum of 18 years of age by the projected graduation date due to TSBDE licensure requirements.
TSI Complete	Your TSI status must be complete for consideration into the program

Pre-requisite Courses*

Chemistry	2 semesters of High School Chemistry with a minimum average of "C" or better OR 4 SCH college chemistry – CHEM 1405 or CHEM1411
BIOL 2401	Anatomy & Physiology I
BIOL 2402	Anatomy & Physiology II may be in progress at time of application
BIOL 2420	Microbiology
	Please note all BIOL courses are 4 hours which includes a lab.

REQUIRED GENERAL EDUCATION COURSES[†]

ENGL 1301	Composition
PSYC 2301 or PSYC 2314	Introduction to Psychology or Life Span Growth and Development
SPCH 1311, 1315, 1318, 1321	Fundamentals of Speech, Interpersonal Communication, or Business and Professional Speaking
SOCI 1301	Introduction to Sociology
Language, Philosophy & Culture or Creative Arts	3 hours Language, Philosophy & Culture or Creative Arts (see College catalog for options)

* Prerequisite courses must be completed with a grade of “C” or above and should be completed prior to application submission. If they are not completed by the May 31st deadline your application may be denied or chances of acceptance are greatly reduced.

[†] Required General Education Courses must be completed prior to DH program graduation. The program is curriculum intensive, thus it is recommended to complete most or all co-requisites prior to entering the DH program. Failure to complete all corequisite courses will decrease your application points and your chances of acceptance.

Requirements and Deadlines AFTER Acceptance

Upon acceptance following must be provided. The forms will be included with the acceptance packet. A CPR course, at the students expense, will be scheduled as part of Orientation.

Requirements	Details	Deadlines
Criminal Background and Drug Screening	Information emailed with Acceptance Letter	Must be submitted to specific company within 15 days of acceptance into program
Criminal History Evaluation (CHE)	Required ONLY if you have been charged and/or convicted of any misdemeanor or felony (other than a traffic violation)	If Required: Request must be submitted to the TSBDE 90 days prior to the application. Completed CHE from the TSBDE must be obtained by the application deadline and submitted prior to acceptance.
Deposit of \$125 to secure your position	Information emailed with acceptance letter	Paid to WCJC business office by deadline listed on form
Technical Standards and Immunization forms	Information emailed with acceptance letter and completed by health care provider	Must be submitted to DH office with one month of acceptance
CPR Certification	Scheduled as part of Orientation. Information included in acceptance packet.	A CPR course is a required part of Orientation to ensure certification throughout the program.
Mandatory Orientation	All students are required to attend on the first Wednesday of August	Required Attendance. Detailed information in the acceptance letter

Application Checklist

Complete Application Packet Should Include:

It is highly recommended that applicants make copies of all documentation prior to submitting application packet. ALL MATERIALS MUST BE SENT IN ONE PACKET. Do not include letters of recommendation they will not be considered.

- ☐ WCJC Application If you are not a WCJC student, you must apply to the college as well as the DH program. Apply to WCJC through Applytexas.org. Include proof of application with your packet
- ☐ DH Application Dental Hygiene Program application with all portions completed
- ☐ Transcripts Official transcripts of all colleges attended must be sent to the registrar's office. Copies of these transcripts or a separate set of transcripts must be included with the DH application. Students with transfer credits (courses completed at other colleges) MUST have transcripts analyzed by WCJC (Request for Degree/Evaluation available at <https://docs.google.com/forms/d/e/1FAIpQLScEaW-W22C7a3cS1yiS8ogjpxuX08k0X2DZq36kOibyL8MTgg/viewform> Please submit requests for transcript evaluation to the Registrar's office no later than April 1 in order to meet the application deadline. A copy of the evaluation will be automatically sent to the DH program. Transcript copies must clearly show student's name and information, as well as completed or in-progress courses.
- ☐ Letter of Eligibility If you have previously enrolled in any other dental hygiene program, you must provide a letter from the program director stating that you are a student eligible for readmission to that program. Your GPA on dental hygiene courses must be a minimum of 2.5
- ☐ High School Transcripts High School transcripts are only required if you are using high school chemistry for the prerequisite requirement or your ACT scores are listed on them. High school must be state accredited.
- ☐ ACT Scores Official ACT scores must be sent to the registrar. A copy of the official scores will be acceptable to include in the DH application packet. It must be taken within the last 5 years. Required of all applicants. No exceptions so please do not ask.
- ☐ Hepatitis B Immunization Documentation of Hep B series, in progress or completed, noted at the bottom of page 10 by health care provider
- ☐ TSI Complete This is requirement for graduation

All materials must be sent in one complete packet. WCJC is not responsible for incomplete applications

E-mailed applications will not be accepted.

Mail to: ATTN. Cylinda Konvicka

Wharton, TX 77488

Dental Hygiene Department
Selection Committee Criteria
Please Read Application Carefully and FOLLOW DIRECTIONS

1) Applicant Has a Complete Application Packet

- i) Packet contains all information and documentation as specified on pages 6 , and has met the May 31st deadline. DO NOT send application in the following: binders, sheet protectors on any type of portfolio. Send ONLY information required.
- ii) Prerequisite Courses are completed with a grade of “C” or above
 - a) Prerequisite courses “In Progress” during application submission must be completed prior to entering the program. Applicant’s chance of acceptance may be reduced if course work is not completed prior to May 31st application deadline.
- iii) General Education Courses are completed or In Progress
 - a) Preference may be given to applicants with more required general education hours completed prior to application deadline of May 31st.
- iv) Minimum GPA (2.5) in requisite courses met. Includes a 2.5 GPA in previously taken dental hygiene courses.
- v) ACT meets minimum composite score and minimum reading score
 - a) Minimum composite score of 19 and minimum reading score of 18 is achieved or exceeded, documented properly, and current within the last 5 years of the final application deadline. (National preferred over Local). This is required of ALL students. There are no exceptions so please do not ask.
- vi) Transcripts showing completion of spring *In Progress* courses are received prior to the May 31st deadline.

2) Applicant Evaluation

- i) Applicants are considered according to requisite GPA, ACT score, and the Point System with the exceptional applicants considered first for acceptance. In the event applicants have identical scores, then science grades in chemistry, anatomy, and microbiology will be evaluated and ranked by individual grades.
 - a) Extra points will be assigned for proof of previous certificates, degrees, high ACT score, and WCJC district residents.
- ii) Transcript evaluations will be conducted by the selection committee.
 - a) Course load (number of semester hours attempted and completed) of each college semester will be considered.

- b) Number of dropped, failed, and repeated courses will be considered, especially for the prerequisite courses. Multiple failed attempts or repeats may decrease the overall application rating.
 - c) Previously taken dental hygiene courses will also be considered. A minimum 2.0 to 2.5 GPA is required on these courses, depending on the number of dental hygiene courses taken.
 - iii) Applicant has shown the ability to meet all required deadlines for the application process.
- 3) Acceptance, Alternate, or Rejection of Applications
- i) Emails will be sent within four weeks after deadline and will identify the application status.
 - a) Acceptance Letters/Packets are conditional, pending all further deadlines and documentation requirements are satisfied, including a satisfactory criminal background check and deposit of \$125 to secure a place in the class. If any stated requirements in an individual's letter/packet are not met, the position will be offered to alternate.
 - (1) A declined position will result in the position being filled by an alternate applicant
 - b) Alternate candidate positions are offered to qualified applicants only, with a potential fluctuation in the number offered, dependent upon the application pool and the number of withdrawn applications.
 - c) Alternate candidates are not necessarily ranked; when a position arises, the space may be filled with the first alternate contacted.
 - d) Rejection of an application will result in an email stating why the application was not qualified and suggesting ways to enhance the application upon resubmission.
 - e) It is the applicant's responsibility to ensure that the application is complete and qualified, via contact with the Dental Hygiene Department as changes occur.

Dental Hygiene Department Philosophy Statement

The Department of Dental Hygiene, an educational unit of Wharton County Junior College, Division of Allied Health, is a two-year program culminating in the Associate of Applied Science Degree. The Curricula are structured to assist the students in the development of skills necessary for entry into the oral health care delivery system. The faculty is committed to creating an educational environment that will facilitate the development of creative, critical thinking, responsible professionals who use skills of problem solving, decision making, and evaluation to direct their future. Furthermore, the faculty strives to instill in graduates the importance of lifelong learning, the advancement of professional skills, and continued competence.

The goal of the Wharton County Junior College Dental Hygiene Program is to graduate hygienists who:

1. Provide highly skilled, comprehensive patient care using professional knowledge, skills and judgment while recognizing each patient as an individual.
2. Serve the community in private practice and public health settings while demonstrating oral health promotion and disease prevention.
3. Provide educational and clinical services to support optimal oral health while applying the principles of the dental hygiene process of care.
4. Recognize the value of continued education following graduation.
5. Participate in professional associations for the advancement of dental hygiene and promotion of oral health.
6. Commit to upholding the ethics of the dental hygiene profession.

Dental Hygiene Course Transferability

Wharton County Junior College DHYG-designated courses are transferable to other Texas colleges as outlined in Texas Higher Education Coordinating Board (THECB) Workforce Education Course Manual (WECM). Other requisite courses necessary to graduate from the Dental Hygiene Program are transferable to other Texas colleges as outlined in THECB Academic Course Guide Manual (ACGM).

Program Information

This nationally accredited program educates students in two years with one summer session in-between. Upon program completion, students receive an associate in applied science degree. As a forerunner for dental hygiene programs, WCJC established the first accredited dental hygiene program in a Texas community college setting. The program is accredited by the Commission on Dental Accreditation of the American Dental Association, the Southern Association of Colleges and Schools, and the Texas Higher Education Coordinating Board. Graduates of the program are eligible to take the National Board Dental Hygiene Examination, the Western Regional Board Examination, and the Texas Jurisprudence examination for licensure. Upon receipt of state licensure, the Registered Dental Hygienist may provide educational, clinical, and therapeutic services.

As part of a dental team in a private dental office, dental hygienists perform numerous services designed to detect and prevent diseases of the mouth. These include performing a prophylaxis (cleaning teeth); examining head, neck, and oral areas for signs of disease; obtaining a thorough dental and medical history; educating patients and the community on oral hygiene and nutrition; exposing and developing radiographs; and applying fluoride and sealants. In addition to private dental practices, dental hygienists may seek employment in public

health settings, correctional facilities, mental health facilities and as sales representatives. Opportunities for dental hygiene education are also available.

Dental Hygiene is one of the few healthcare professions that offers the flexibility of full-time or part-time work to help you combine professional opportunities of a meaningful career with personal endeavors. Demand for registered dental hygienists is excellent with salaries reflecting that appeal. Depending upon the geographic area, hourly wages range from \$32-50. The Dental Hygiene Department maintains an outstanding record of placing its graduates in dental hygiene employment. Students graduating from this program typically receive employment anywhere in the state of Texas and beyond.

STUDENTS WITH FOREIGN TRANSCRIPTS

HIGH SCHOOL TRANSCRIPTS

Credit for high school chemistry will be given to students graduating from a state accredited high school. No transcripts from an institution outside the U.S. will be accepted.

Credits Completed at Institutions Outside the U. S

1. Evaluations will be conducted on an individual, course-by-course basis. Credits completed at institutions outside the U.S. are individually evaluated at the student's expense through SPANTRAN, Foreign Credentials Service of America (FCSA), or World Education Services (WES). Students with foreign university credit must submit information directly to SPANTRAN, FCSA, or WES and request a copy of the evaluation be sent to the WCJC Office of Admissions and Registration. The student must also send directly to WCJC a copy of their original foreign transcript and certified English translation for all course descriptions.
2. While credits may be awarded by WCJC for pre-requisite and co-requisite courses, all DHYG designated courses (dental hygiene courses) must be taken at an ADA Council on Dental Accreditation (CODA) accredited institution to obtain a license as a dental hygienist in Texas.
3. Degree applicability of all courses will be determined by the program.

Dental Hygiene Curriculum
(68 semester credit hours)

An Associate of Applied Science degree program offered by the Division of Allied Health.

Course	Course Title	Semester Hours
Prerequisite semester:

PSYC 2301*	Psychology	3

Capstone Experience: During the last semester of the program, the capstone experience consists of a Mock National Board Dental Hygiene Examination that tests comprehensive cognitive abilities. The Mock examination assesses the ability to understand important information from basic biomedical, dental, and dental hygiene sciences and also the ability to apply such information in a problem-solving context. Successful completion of the Mock examination is a prerequisite to taking the National Board Dental Hygiene Examination prior to graduation.

Immunization Requirements

Documentation by your health care provider for the following immunizations must be provided upon acceptance into the program. The program uses a document tracking service and information will be provided in the acceptance packet. The following is for applicant information only. Please note that blood tests are required to document proof of serological immunity. If results are negative, then immunizations will be required. It is suggested that this be initiated prior to acceptance. Immunizations are required to participate in clinical rotations as well as on-site patient treatment.

TETANUS/Diphtheria (T-dap)	Booster within 10 years	
HEPATITIS B	3 shot series or antibody test	In progress at time of application submission. Completion prior to Jan. 1 st
M.M.R. (measles, mumps, rubella)	Positive antibody test	Proof of serologic immunity
VARICELLA (chicken pox)	Positive Varicella antibody, or 2 doses of varicella vaccine	Proof of serologic immunity
TUBERCULOSIS	Annual (yearly) screening	PPD Mantoux results only. Tine or Monovac are not acceptable.

Examples of Technical Standards Necessary to Perform Dental Hygiene-Related Duties

This is for applicant information only; form will be provided upon acceptance into the DH Program. Accepted students must verify ability to comply with the following technical standards.

1. DEXTERITY – sufficient coordination and fine motor skills to potentially perform lab and clinical procedures; including but not limited to the use of curets and probes.
2. COMMUNICATION SKILLS – sufficient verbal and written ability with sufficient proficiency in English to communicate succinctly with faculty and patients, obtain information from texts and lectures and accurately construct legal documentation.
3. VISUAL ACUITY – healthy vision (near or farsighted) with or without corrective lenses. Ocular condition should not hinder normal hygienist procedures such as reading radiographs, obtaining a patient history and providing patient care.
4. TACTILE ACUITY – displays sufficient, normal tactile acuity to potentially perform delicate hygiene procedures.
5. AUDITORY ABILITY – hearing is sufficient to clearly determine blood pressure with proper instrumentation, understand normal speaking tones and communicate effectively with patients and faculty.
6. PHYSICAL ABILITY – overall physical condition should not hinder maneuverability in limited spaces; allow for ergonomic positioning of body for safe operator-patient positioning over extended periods of time.
7. CRITICAL THINKING ABILITY – displays mental ability to interpret written information and visual assessments (as best determined within the context of a normal physical exam).
8. INTERPERSONAL ABILITY – does not have a medical history or condition that would result in an inability to function and adapt under stressful conditions.
